Statistikkonsulterna Jostat & Mr Sample AB are now looking for a Statistician for assignments at AstraZeneca. Employer: Statistikkonsulterna Jostat & Mr Sample AB City: Göteborg.

Statisticians

Are you interested in becoming part of the statistics group at AstraZeneca R&D Mölndal. Biometrics & Information Sciences are now looking for statisticians for assignments with start as soon as possible.

As a statistician in clinical development you are expected to provide statistical expertise in the design, planning, evaluation and documentation of clinical studies and programs in all phases of clinical development. This will also include work of more exploratory nature, e.g. modeling and simulation, as well as other means to improve internal decision making. Dependent on your experience you might also be expected to contribute to more strategic planning, act as expert contact to our external collaborators, coach more junior staff and be part of the department's adaption and development of statistical methodology.

Required Background

Minimum MSc in Mathematical Statistics, Statistics, Biostatistics or similar subject with a strong focus on statistics.

Good collaboration, communication and influencing skills.

Good written and spoken English.

Desired Additional Background or Skills

One or more of the following is an advantage:

Higher academic degree.

Experience from drug development or other related fields.

Personal Qualities

We put high importance in personal qualities. Candidates should possess good social skills, be strong team player and be able to work effectively in a global organization where teams often are

geographically dispersed. You should be able to work independently, take own initiatives and have a positive, goal oriented and problem solving attitude. It is essential to have good organizational and communication skills and you should be able to analyze and summarize your results and be comfortable in presenting them. A successful candidate has interest and ability to communicate statistical matters to other experts as well as interest in the application of statistical methodology in pharmaceutical development.

Statistikkonsulterna has since 23 years profiled in statistics and mathematics and now consists of 10 qualified statisticians and a large network of universities and colleges. Statistikkonsulterna is focusing on staff development through internal and external training and seminar and conference participations. Several of Statistikkonsulterna's employees are also active partners.

Statistikkonsulterna has framework agreement with Volvo companies, CEVT, Scania, AstraZeneca, IKEA of Sweden, SCA, MHC TetraPak. Furthermore, we also perform research-related projects for universities, hospitals etc.

Statistikkonsulterna is SAS Silver Partner and an active member of Swedish Statistical Association and ESOMAR SFK.

Statistikkonsulterna has access to and experience in SAS / Base, SAS / Enterprise Guide, SPSS, R, and Minitab. Furthermore, we have expertise in programming and SQL.
